Bengaluru, 13 February 2026: The School of Information at St Joseph's University organised the inaugural lecture under the **AICTE Distinguished Professional Scheme (DPS – 2nd Phase)**. The programme marked the beginning of an enriching lecture series aimed at exposing students and faculty to emerging advancements in technology and research.

The keynote address was delivered by **Dr. Venugopal K. R**, former Vice-Chancellor of Bangalore University, IEEE Fellow, and a distinguished academician. His lecture on **"Generative AI and Future Computing"** offered deep insights into the transformative role of generative artificial intelligence and its implications for future computing paradigms.

Dr. Venugopal elaborated on the rapid evolution of AI technologies, the expanding scope of generative models, and their influence on innovation, research, and industry practices. He encouraged students to think critically, remain adaptable, and actively participate in shaping the technological landscape of the future.

The session was followed by an engaging interaction with faculty members, focusing on the research process, interdisciplinary collaboration, and strategies to strengthen research culture within the institution. This discussion further enriched faculty engagement and reinforced research orientation among participants.

The programme was convened by **Dr. Sivakumar T**, whose proactive initiative helped secure this prestigious grant for the institution under the AICTE scheme.

The event witnessed the presence of **Dr. Bojamma**, Dean of the School of Information, along with the Heads of the Departments — **Dr. B. G. Prasanthi** and **Dr. Jayati Bhadra** — and all faculty members of the Department of Computer Science and the Department of Advanced Computing. Their collaborative efforts contributed significantly to making the event meaningful and impactful.

The inaugural lecture successfully set the tone for future academic engagements under the Distinguished Professional Scheme, fostering a culture of innovation, inquiry, and excellence.
